

United in Marriage To-Day at the
Congregational Church.

The marriage of Miss Tillie Dixon and Samuel E. Schminck took place this morning at 11 o'clock in the Congregational church, Rev. W. C. Miller, the pastor, officiating. The church was artistically decorated with lilies, palms and cut flowers. At the hour set for the ceremony the bride party entered the church, the groom and the minister passing down the east aisle, and the bride on the arm of J. L. Stout passing down the west aisle to the altar, where they met, and a short but beautiful wedding ceremony was observed. The mandolin orchestra played Lohengrin's wedding march while the bride party was on the way to the altar, and "Promise Me" when the procession left the church. They passed out the east aisle as follows: Mr. and Mrs. Schminck and Rev. Miller and Mr. Stout. The bride looked lovely in a gown of changeable silk, hat and gloves to match, and carried a bouquet of roses. The church was filled with the large number of friends and relatives of the contracting parties.

The groom is well known as the bookkeeper at the Review office, and is a young man of exemplary habits. His bride is an accomplished young lady with hosts of friends.

The couple received numerous useful and beautiful presents.

Mr. and Mrs. Schminck will for the present be in the East Court street until their residence now in course of construction on North Union street is completed. It will be an attractive six-room home.

NEW AND NOVEL.

Mr. W. H. has a nickel-in-the-slot machine which gives the "nickeler" a right to one use of the telephone.

A new steam hammer, said to be the largest in the world, recently put up in the Krupp Gun foundry at Essen, is so delicately adjusted that it could be made to beat out a hair spring.

The Traction company, of Baltimore, uses devices by which the fire department's hose is carried over the tops of the cable cars, and thus there is no delay to traffic during the continuance of a fire on the line.

TRIENNA is said to have fashioned miniature mills "that would run themselves" so minute that a monk could carry one in his sleeve, yet so powerful that they would grind enough wheat in a single day to make bread for eight men.

OUT OF STYLE.

At the end of the fourteenth century the headresses assumed the shape of two enormous horns projecting from the sides of the head often five and six feet. Doors had to be widened to admit the bearers.

The scarf known as cravats or cravats came into France about 1630. They were copied from the shawls which the Croats wore round their necks, and were immediately adopted and exaggerated by the ladies.

The French and Italian perfumers of the sixteenth century made a noted cosmetic by pulverizing together the wings and claws of pigeons, turpentine, lilies, eggs, honey, sea shells, mother of pearl and camphor.

Under the Merovingian dynasty in France the female costume consisted of a crimson gown with grayish-yellow bodice, gold bordered belt, blue cloak, and white veil fastened on the forehead with a gold band.

AN ENGINEER BRUTALLY MURDERED

And His Remains Mutilated—Many of the Rioters Killed and Scores of Them Arrested—Worse Results Feared for To-Day.

PITTSBURGH, Pa., April 5.—A special to the Times from a staff correspondent at Uniontown, Pa., says: Chief Engineer Joseph S. Paddock, of the H. C. Erie Coke Co., was brutally murdered by 200 riotous Hungarians at the Davidson coke works at Connellsville, about 3 o'clock yesterday afternoon. The murderers were pursued by a sheriff's posse. One of the fleeing Hungarians was shot and instantly killed. Two others were fatally wounded. Two other miners, who refused to join the mob, were assaulted and fatally hurt. They were carried away by their associates.

Ninety-four of the rioters and alleged murderers have already been arrested and are now in jail here charged with murder. Two hundred picked men, acting as deputies to Sheriff Wm. H. Wilhelm, of Fayette county, mounted and armed to the teeth, went galloping through the coke regions last night, searching for L. R. Davis, president of the United Mine Workers, Daniel Darby, secretary of the organization, and John McStoy, who are alleged to have organized the murderous mob and who are said to be directly responsible for the killing of Paddock.

This region, which in other years has been shaken by discontented labor, is fairly trembling on the brink of revolution. Never before were the dangerous foreigners so thoroughly aroused. They seemed organized for murder, and from one end of the region to the other they have marked their path with wreck and ruin, and concluded the bad day's work with the killing of one of the most substantial men known to the coke business. The murdered man lived at Connellsville. He leaves a widow and three children. By honest effort he had won a prominent and profitable place with the Erie Coke Co., and when his life was sacrificed, he was endeavoring to escape the fury of the mob that came upon him like a cyclone. He was at work at the time. He had with him his instruments and had just come out of the mine. He was in the tipple.

Hugh Call, one of his assistants, was with him when the murderous mob broke into the tipple building, apparently with a view to burning it. Their wild shouts rolled through the place in a furious storm. Call fired on the approaching mob which seemed to intensify their rage, and they rushed upon him. He jumped through a window and escaped.

A Brave but Futile Race for Life.
Paddock attempted to escape by running through the infuriated crowd. Stones and clubs were hurled at him. Twice he was knocked down, but with superhuman effort he regained his feet. Finally he was knocked down by a heavy stone thrown by one of the mob. He fell senseless, and each of the demons struck him with a stone while he lay helpless. His head and face were crushed. His clothes were torn and he was disfigured almost beyond recognition. Then while he lay there dead, one of the mob fired a bullet into his head. His body was then carried to a window in the tipple building and was thrown about forty feet to the burning ovens below. Then the mob disappeared over the hill in the direction of Broadford.

Paddock was 35 years old. His killing occurred within sight of his home. He was a graduate of the Lehigh university.

The Sheriffs Notified of Their Responsibility.

Adj. Gen. W. W. Greenleaf came to Connellsville yesterday to examine into the situation. He regards the outlook with concern, but has not determined to call out the militia. Sheriff Wilhelm of Fayette county, and Sheriff P. J. McCann of Westmoreland county, have been notified by the coke producers of their responsibility for all property in the region.

Sheriff Wilhelm is here. Sheriff McCann is at Mount Pleasant. Neither have asked the governor for troops. Both are decidedly nervous.

Last night were camped on their arms throughout the region and today's work promises to be more deadly than was yesterday's.

Compelled to Quit Work and Join the Murderous Mob.

Every plant in the region south of the Leith works was visited by a band about 300 strong, early yesterday morning, and the men at work were compelled to quit. The raiders left Oliver, where they met at 1:30 a. m., and proceeded to Leith. The houses of the foreign element were besieged to get the men to accompany the strikers on their raid, but all the doors were locked, and some nailed tightly. When the Leith men failed to come out the doors were broken in and the men dragged out by the heels. They were forced to fall into line and march on south with the strikers. At all the plants the workmen were told that they would be beaten within an inch of their lives if they returned to work.

all foreigners, held a meeting in Uniontown for the purpose of planning their work for to-day. When the train arrived bearing the captured strikers the meeting adjourned to the depot. Later they left in a body for the plants south of here to keep watch at all plants and see that no work is done to-day.

None of the Erie plants will attempt to run and it is hardly probable

that any of the smaller operators above will try it as none have deputies to guard the men and without protection and lots of it the effort would be futile.

Ten Huns Killed or Fatally Wounded.
PITTSBURGH, Pa., April 5.—A Connellsville (Pa.) special says late reports from Bradford last night say that ten Huns were either killed outright or fatally injured by the deputies and citizens who were pursuing them for the murder of Chief Engineer Paddock.

A sensational rumor was received here at 11 o'clock last night to the effect that the clerks, company officials and deputies in the offices of the Erie and McClure companies were besieged by a mob of 1,500 strikers, and that the rioters were making menacing demonstrations.

A telephone message from the company store partly confirmed the rumor.

TELEGRAPHIC NOTES.

—There is a doleful note of \$100,000 in the Kentucky state treasury.

—Gen. Feyer's peace army crossed the Mississippi river at St. Louis yesterday morning and proceeded eastward.

—The pope had a fainting fit Tuesday, lasted half an hour. He rallied, however, and showed no signs of weakness thereafter.

—At the city election in Spring Hill, Kan., Tuesday, women were elected to all the municipal offices, including mayor, councilmen and police judges.

—Sir Julian Pauncefote, British ambassador to the United States, will probably succeed Sir Edward Malet as ambassador to Germany, at the end of this year.

—A great conflagration is raging in Shanghai. Up to yesterday a thousand buildings, large and small, had been destroyed, and the fire was still burning.

—Paul J. Sorg, of Middleton, was yesterday nominated by the third (O.) district democratic convention as its candidate for congress to succeed the late George W. Houk.

—Ex-Sheriff Leonard Tresselt, recently convicted at Mansfield, O., of embezzlement on the first of several indictments found against him, was yesterday sentenced to two years' imprisonment.

—Wages will be reduced in the transportation departments of the Louisville, New Albany & Chicago and the Chicago & Erie railroads, in all probability before the end of the current week.

—Ferdinand Ammann, a St. Louis sausage maker, has been trusted with carrying with him a dead cow from a dairy without a permit and transporting it to his factory with intent to convert it into sausages.

—A free-for-all fight between about thirty-five tramps on one side and railroad trainmen under the leadership of Detective Grady occurred at the west-bound mail train pulled out of Lebanon, Ind., Tuesday. Two of the tramps were seriously hurt.

—The sentence of the naval court-martial in the former case for carelessness in permitting the Kearsarge to go on Roncador reef is two years' suspension on waiting orders. The court recommended clemency. The secretary of the navy has not yet approved the sentence.

—Adin P. Wethering, a private watchman at Haydock's St. Louis, carriage factory, while on his way home yesterday morning between 6 and 7 o'clock, dropped dead on the street, supposedly of heart trouble. Deceased was 64 years old, married, and was subject to fainting spells.

—President Hubbard of the Belfast blast furnace, at Wheeling, W. Va., died for ten months, which was to have employed over 100 men, and which was to have been blown this morning, gave notice to the men Tuesday night that on account of the strike in the coke regions resumption would be postponed indefinitely.

IN A CROWDED RESTAURANT.

Three Persons Injured by the Explosion of a Bomb—Great Excitement—The Police Arrived. PARIS, April 5.—A bomb was exploded at 4:15 last evening on the window sill of the Restaurant Foyot, in the Rue de Conde, near the Luxembourg. The restaurant was two-thirds full of late diners. Paris of the bomb flew through the room, smashing glass and crockery. Everybody started for the doors, but the panic abated as soon as it became evident that only one bomb had been placed. When the police arrived they found only three people injured, one of them the socialist poet, Tailade, who was wounded severely in the head.

The end of the restaurant facing the Rue de Conde was partly wrecked. The window sill and two or three feet of the wall were blown out, the plaster was cleaned from the ceiling as if with a knife and everything on the nearest tables was in fragments. Not a window in the Rue de Conde front of the building was left whole. The windows of houses for 200 feet up and down the street were smashed into bits, and the pavement was strewn with glass.

The whole neighborhood was shaken and the audience in the Odeon theater, hardly 50 yards distant, was badly frightened by the report and shock. At first many arose to leave, but the manager quieted their fears and the performance proceeded to the end.

Many senators hurried to the cafe immediately after the explosion, and the military guard of the senate was called to arms. Ten minutes after the explosion the prefect of police was at hand, and the whole force of the district was focused speedily at the Foyot, so as to prevent the escape of the man who placed the bomb. Immediately after the explosion there was one arrest. The policeman who arrived at the restaurant first was informed by a bystander that a man then walking hurriedly down the street had just run out of the building next door. The policeman overtook the man and arrested him. At 10:30 o'clock it was not known that the police had any proof of the prisoner's guilt.

A Republican Landslide. PROVIDENCE, R. I., April 5.—Practically complete returns show that Brown (rep.), for governor, will be elected by fully 4,500 plurality. It has been a republican landslide, and the democratic rout is complete. The entire republican state ticket is elected and the legislature is overwhelmingly republican. Last year the democrats controlled the house, having forty representatives. This year they will have but four. The former democratic cities of Providence, Newport, Pawtucket and Woonsocket have gone republican.

The former tutor of Professor Bioroth says that the famous surgeon was a very dull pupil, and so slow of speech that it took him a long time to get his tongue too thick to move.

WHAT is it? It is a bottle. What is in the bottle? Syrup. Why do I see it in so many houses? Because everybody likes it. What is it for? For Coughs, Colds, Croup, Whooping Cough and Consumption. What is its name? Parks Cough Syrup. Sold by W. F. Neisler.

THE PRESIDENT WINS

The Seigniorage Bill Defeated in the House

BY FAILING TO PASS OVER THE VETO.

A Petition for Increased Duty on Sugar—Mr. Allison's Speech Against the Tariff Bill Concluded—Mr. Mills Speaks for the Measure.

SENATE. WASHINGTON, April 4.—Mr. Quay presented the memorial of the board of trade of Philadelphia, asking for adequate duties on sugar. He said that the memorial was very brief, and he would be glad to have it read.

The clerk had read one or two sentences when objection was interposed by Mr. Harris on the ground that it was against the rule to have petitions read or printed in the record. Thereupon Mr. Quay had the memorial returned to him by the clerk and was proceeding to read it, when he was called to order by Mr. Harris, who stated that the rule required that a brief statement of petitions and memorials should be made to the senate.

Quite a discussion followed, and finally the vice-president rendered his decision. The rule, he said, was adopted for organizing the time of the senate, and he felt compelled, therefore, to sustain the order made by the senator from Tennessee.

"Is it the decision of the chair," Mr. Quay asked, "that I may make a brief statement of the contents of the petition?"

"The chair declines," the vice-president answered, "that the rule and custom has been to permit a senator presenting a petition to make a brief statement of its contents."

Under that ruling Mr. Quay proceeded to state that the petition came from the Philadelphia board of trade, one of the strongest commercial organizations in the country, composed of gentlemen of high intelligence, large wealth and great respectability; that it related to the duties on sugar; that the rates contained in the bill would eliminate the importation of foreign sugar, and would destroy the refining business of Philadelphia, in which \$30,000,000 of capital was invested and 6,000 men employed. The rate proposed in the memorial is for all sugar of 98 degrees polariscope test or No. 16 Dutch standard, \$1.25 per 100 pounds, and one-fourth of one per cent in addition on refined sugar, or \$1.51 per 100 pounds.

Mr. Allison resumed his speech in opposition to the tariff measure. He said that the action of the senate in refusing to pass the bill was a principle of all valuer duties in the matter of iron and steel, coal, iron ore and sugar, and intimated that if the discrimination was made for the purpose of obtaining the support of the industries which supported the production of those products in the United States.

The question of windowglass, which had been casually mentioned by Mr. Allison, was taken up by Mr. McPherson who contended Mr. Allison that under the tariff of 1890, which the senator had supported, the duties on common windowglass ranged from 10 per cent to 15 per cent, and he asked him to put these rates aside by side with the rate of 82 per cent, as provided in the pending bill.

Mr. Allison replied that he was not criticizing the duty on glass. He expected to help the senator from New Jersey in retaining the duty on windowglass. He should be glad to follow him in whatever rate he thought should be established to enable this country to compete with Bohemia in the production of common windowglass.

When Mr. Allison had concluded, Mr. Mills addressed the senate in reply to the argument of the Iowa senator and after an executive session the senate, at 4:15, adjourned till tomorrow.

HOUSE. Very much to the surprise of almost everyone, the house today disposed of the Bland seigniorage bill, refusing to pass it over the president's veto, the vote being Yeas, 141, Nays, 113—not the two-thirds required by the constitution. The bill came up after the house had voted to send Warren D. English (dem.) as a representative from California in place of Samuel H. Johnson (rep.).

Mr. Bland had been willing to give way with his seigniorage bill to the bill passed by the senate to enforce and make effective the regulations for the protection of the fur seals recommended by the Federal bureau of arbitration, but demand was made by Mr. Payne (rep., N. Y.) for the regular order. This cleared the way for the Bland bill, and its author called upon the president's veto message. He gave notice that at his request the previous question on the motion to pass the bill at 8 p. m., Saturday, but in the confusion which prevailed while the matter of an agreement upon closing debate was being discussed, no attempt was made to speak on the bill or message until after the speaker had put the question of the passage of the bill and the roll call had begun.

He then declared it to be too late to enter upon debate, and against the protests of republicans and democrats opposed to the passage of the bill and amid great confusion and excitement, he ordered the roll call to proceed to a conclusion. It was completed at 5 o'clock and immediately upon the announcement that the bill had failed to pass, the house adjourned until tomorrow at 12 o'clock.

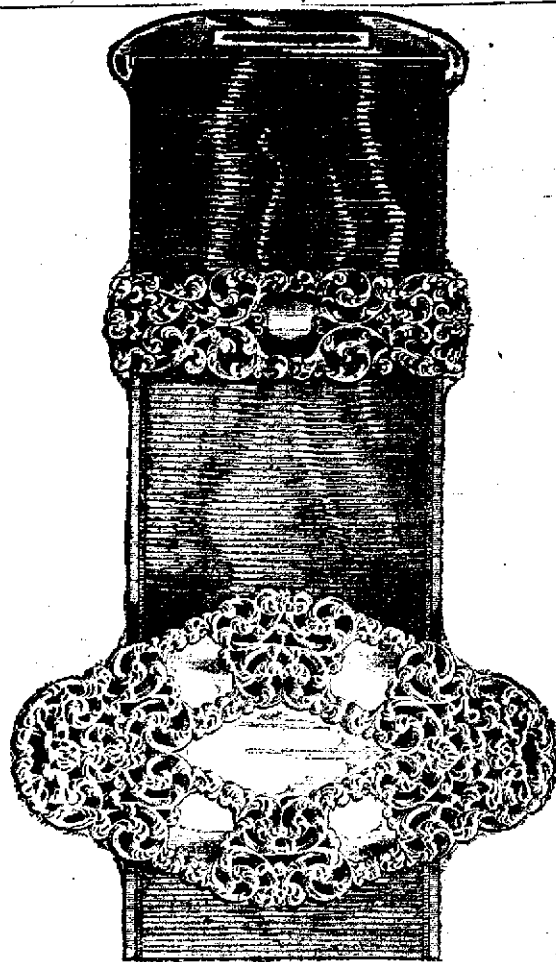

ALL QUIET AT COLUMBIA.

The Governor's Authority Over the Police Disputed. (Special Dispatch to the United Press.) COLUMBIA, S. C., April 5.—Everything is quiet here to-day. Gov. Tillman walked down the street this morning, entered a barbershop and was shaved. While on the street he was not jeered or otherwise insulted. Both factions regard this as an indication that conditions are more pacific than they have been at any previous time since the excitement began. Notwithstanding these symptoms, it is easy to see that the people are still excited, and the animosities which have been engendered are intense.

Mayor Lisher of Columbia says he shall pay no attention to the governor's proclamation of yesterday taking control of the police. Under the advice of the city attorney, he says he shall treat it as utterly without authority. It is held by the city authorities that the governor has no right to take control of the police except in case of riot and then only with the acquiescence of the city authorities. He cannot discharge nor appoint policemen and there is no penalty for their refusal to obey the governor under any circumstances.

Gov. Tillman's friends insist that he has in no wise transgressed his authority and that he is commander-in-chief of the civilian police as well as the military forces of the state, and that there shall be any clash as to the governor's authority, a special session of the legislature will be called and the governor's powers clearly defined.

St. Louis Globe-Democrat: "It is a revolt," said Louis XVI. to the monarchist who said: "The king is the king."

the fall of the Bastille. "No, sire," said the messenger, "it is a revolution." Here, too, is a revolution. America's Bourbon bastille fell when the Democratic plurality of 47,000 in 1891 and of 45,000 in 1892 in New York was transformed into a Republican plurality of 24,000 for some state officers and of 101,000 for Court of Appeals judge in 1893. What 1789 was to the dynasty established by Henry IV, 1893-4 is to the party of Grover Cleveland, and the 1792 which deposed the unfortunate Louis and established the republic will have its counterpart in this country in 1896 when the Democratic regime will be overthrown and Republican sway restored. Democracy's blunders and iniquities have aroused the popular wrath, and the day of doom for that organization is close at hand. All the political signs portend that the immediate future at least is to be placed in the keeping of the Republican party.

ARRIVAL OF THE BODY.

Funeral of Frank A. Leforgee on Friday Afternoon.

The remains of the late Frank A. Leforgee, who died Sunday night on the train in Utah, arrived in Decatur to-day and were received at the depot by relatives and friends. The body was taken to the family residence on West North street. M. F. Kanan, Geo. S. Simpson, J. B. Miller, A. W. Conkline, A. F. Ross and B. O. McLeysold were the pallbearers.

The funeral will take place from the Christian church on Edvard street at 2:30 o'clock Friday afternoon. The services will be conducted by Rev. T. W. Pinkerton, of Paris, Mo., a former pastor of the church, assisted by Rev. G. F. Hall.

In Bad Shape.
 E. P. Houston and E. O. Hopkins were appointed as receivers for the E. & E. road on January 12th. In the report submitted Wednesday they represent that the road is in a deplorable condition physically and ask the permission of the court to expend \$174,250 in much needed improvements. The business of the road has almost completely fallen away on one division of the road on account of the roughness of the track. This is the Chicago division, where passenger trains are scheduled at the remarkably low rate of nine and one-half miles an hour. The total amount of the funded debt of the road is \$5,517,075. The gross earnings from July 1, 1893, to January 13, 1894, were \$439,244, the operating expenses \$259,335 and the net receipts \$229,908. The road is equipped with 23 passenger cars, 33 engines, 1,782 freight cars of all kinds and 139 road service cars.

Social Rank of the O. K. of A.—Further Machine on Marriage.

The dedication of the new club room of the Social Rank of the Catholic Knights of America, which society was organized in 1893, was held last night at the hall in the Mills Vail building north side Central Park, and the rooms were crowded. The club has 100 members representing the elite of Catholic society. The programme of music and addresses already published was observed.

MACHIN ON MARRIAGE.

It was expected that the Very Rev. Father Mackin would deliver a didactic address but he made only a few remarks. He is indisposed and did not feel able to speak long. He said:

"I regret exceedingly that I am not able to talk to you as I wish to. It would be a great pleasure and I would enjoy it very much. This club that you have just organized is a fine thing and you should be proud of it. Young men are brought together in a social manner and the time is well spent, otherwise they might seek pleasure in the forbidden paths. It brings you in contact with each other, your rough edges are worn off and your intellect is broadened. Your observance of ladies' night will be very enjoyable. It is necessary for the welfare of the church that all Catholics become acquainted. The Catholic young men must know the Catholic young ladies, and these young men must not marry outside the church. If you only knew the worth of these young ladies you would not think of looking outside for your wife. Knowing, you will appreciate each other better."

ON A RELIGIOUS WAVE.

Close of and Extraordinary Series of Revival Meetings in Bloomington.

The extraordinary religious revival closed at Bloomington last night. It was conducted by Dr. J. Wilbur Chapman and was begun two weeks ago. A league of seven Protestant churches was formed under the auspices of which the Chapman meetings have been held. The meetings a week ago outgrew the First M. E. church, and since then have been held in the Grand opera house which has been filled at every meeting and thousands have been turned away. Last night the attendance was so large for the closing meeting that an overflow meeting was held at the First Presbyterian church. The revival has been wonderfully effective in conversions and has added largely to the membership of all the churches of Bloomington. The exact number of souls saved is not stated, but it is believed to be larger than were received in Decatur.

HELD FOR TREASON.

George Owens Said He Took 10 Cents Worth of Old Rags.

In Justice Paddock's court yesterday afternoon George Owens, a consumptive, was tried under a state warrant for the theft of 10 cents worth of rags, which he admitted that he took from Christopher Wilson, a junk dealer. The rags were in a bag and were sold to Max Atlas. J. M. Gray appeared for the defendant, and Jay Boggs appeared for the People. The admission of Owens was bad for the defendant, and Justice Paddock held him to answer the action of the June grand jury. The bond is \$100.

Photographic Tour of the World.
 Part Eight of the Photographic Tour of the world is ready for distribution to-day. This portfolio is the equal of any of its predecessors for its art and the importance of the illustrations. The photographs are of scenes and objects of interest in Great Britain, Russia and Holland, and contains such pieces as the John Knox house, Blarney Castle, Killarney, Dublin, Moscow, the great bell, the Dutch windmill of Holland, Ellen's Isle, Holyrood Castle and the Hermitage. Everybody should avail themselves of these portfolios on the favorable terms they are offered, namely three coupons and 80 cents. The coupons for this number are now running, there are also coupons for the book numbers which may be secured.

Went to Clinton.
 The trial of Lee Miller, of this county at Clinton took Sheriff Keys, Eugene Sheer, James Shry, James O'Keefe, George Miller, William Thompson and other witnesses over on Friday to testify in his behalf. Miller was arrested on the testimony of Van Meter, lately sent to the penitentiary for the shooting on a P. D. & E. train. Miller had testified against him and the belief is here that Van Meter was only trying to get even with him. The jury took this view of the case and Miller, having proved an alibi, was acquitted.—Lincoln Herald.

CROPS DAMAGED BY THE COLD.

Less than One-Fourth of a Crop of Apples Is Expected.

The reports received at the office of the State Board of Agriculture April 1 confirm the reports as to the extent of the damage done the fruit by the cold snap of March 25 and 26. The weather for a week or two before that time had been unseasonably warm and vegetation of all kinds was in a much more advanced stage than usual at that date, so that the cold weather caught it in a tender condition and wrought great havoc.

Reports: blazes were sent out to the largest fruit growing counties in the state and a report was asked for on apples, peaches, pears and strawberries. Up to March 25 the prospect for apples was encouraging and the hope was entertained that the 1894 crop would partially retrieve the losses to orchardists of the last three years, but the reports predict that less than one-fourth of an average crop of 1893.

Peaches are practically a total failure as well as pears, their condition being but 3 and 11 per cent, respectively. Strawberries were not so severely injured, the report giving their condition at 40 per cent, of an average, and it is believed that with a favorable season from now on half a crop will be realized.

THE COURT WINED.

But Went Right Ahead in Unfettered Liberty.

Notes from Judge Paddock's Bench.
 Chicago, April 5.—Judge Paddock has placed a new obstacle in the path of Assassin Pendergast's march to the gallows. It has been the intention of State's Attorney Kern, when the insanity case was called for hearing this morning to move for the dismissal of the regular panel of jurors and the summoning of a special venire to be composed of business, professional and other men of more than the average intelligence.

To checkmate this move the attorneys for Pendergast went to Judge Chetlain yesterday afternoon upon short notice to the state officials and asked for the impounding of a jury to be chosen from 100 jurors to be drawn from the box.

The arguments commenced at 2 o'clock, and considerably heat was manifested on both sides. Lawyers Barron and Gregory, for Pendergast, insisted that they had a right to a jury of all classes, even if entirely composed of the common people, and that it would not be fair to the convicted man to allow his mental condition to be passed on by a special jury.

State's Attorney Kern and A. S. Trude, the latter of whom had returned from Florida to take part in the case, argued that it would be manifestly wrong to try so important a case by a jury drawn from a box. After argument of over two hours, Judge Chetlain rendered an oral decision granting the motion of the defense. Before he had concluded he was interrupted by Mr. Trude, who told him in pointed language that such a decision would be a single exception to the unbroken rule of practice since Illinois joined the sisterhood of commonwealths. The court winced and his hand trembled, but looking straight ahead at his ex-partner, who appeared for Pendergast, he went on with his decision.

Afterwards Mr. Trude gave notice to the defense that every man of the panel called would have his every movement inquired into from the cradle up.
 At the state's attorney's office the opinion was expressed that under the ruling of the court it would be impossible to carry into effect the sentence of death which now hangs over Mayor Harrison's assassin.

NARROW ESCAPE.

Of Five Hundred Persons from a Bomb in the Leadville Courthouse.

LEADVILLE, Col., April 5.—Yesterday morning a large bomb was found in the courthouse with a long fuse attached, which providentially went out within half an inch of the bomb. Over 500 persons were in and around the building at the time. The board of county commissioners met shortly afterward and offered \$1,000 reward for the detection of the miscreant who placed it there.
